"Good standing" means that less than one-twelfth of the annual support obligation is overdue; or liability for any support payable is being contested in a judicial or quasi-judicial proceeding; or he or she is in compliance with a repayment plan approved by the office of child support or agreed to by the parties; or the licensing authority determines that immediate payment of support would impose an unreasonable hardship. Regarding Taxes

Title 32 § 3113 requires that: A professional license or other authority to conduct a trade or business may not be issued or renewed unless the person certifies that he or she is in good standing with the Department of Taxes. "Good standing" means that no taxes are due and payable and all returns have been filed, the tax liability is on appeal, the taxpayer is in compliance with a payment plan approved by the Commissioner of Taxes, or the licensing authority determines that immediate payment of taxes would impose an unreasonable hardship. (32 V.S.A. § 3113)

2. You must check one of the two statements below regarding taxes:

For the purposes of this section, a person is in good standing with respect to any and all contributions or payments in lieu of contributions payable if: (1) no contributions or payments in lieu of contributions are due and payable; (2) the liability for any contributions or payments in lieu of contributions due and payable is on appeal; (3) the employing unit is in compliance with a payment plan approved by the Commissioner; or (4) in the case of a licensee, the agency finds that requiring immediate payment of contributions or payments in lieu of contributions due and payable would impose an unreasonable hardship.

- ☐ I hereby certify, under the pains and penalties of perjury, that I am in good standing with respect to or in full compliance with a payment plan approved by the Commissioner of Employment and Training to pay any and all unemployment contributions or payments in lieu of unemployment contributions to the Vermont Department of Employment and Training due as of the date of this application. At no time shall the scope of practice of the physician assistant exceed the normal scope of either the primary or secondary supervising physician(s) practice.

Physician assistants practice medicine with physician supervision. Physician assistants may perform those duties and responsibilities, including the prescribing and dispensing of drugs and medical devices, that are delegated by their supervising physician(s).

Physician assistants shall be considered the agents of their supervising physicians in the performance of all practice-related activities, including but not limited to: the ordering of diagnostic, therapeutic and other medical services.

It is the obligation of each team of physician(s) and the physician assistant(s) to insure that the written scope of practice submitted to the Board for approval clearly delineates the role of the physician assistant in the medical practice of the supervising physician. b) Supervision: A detailed explanation of the mechanisms for on-site and off-site physician supervision and communication, back-up and secondary supervising physician utilization. Included here should be a description of the method of transport and back-up procedures for immediate care and transport of patients who are in need of emergency care when the supervising physician is not on premises. VERMONT BOARD OF MEDICAL PRACTICE

At its meeting on June 5, 1996, the Vermont Board of Medical Practice adopted the American Medical Association (AMA) and American Academy of Physician Assistants (AAPA) recommendations for the working relationship between physicians and physician assistants.

1. The physician is responsible for managing the health care of patients in all practice settings.
2. Health care services delivered by physicians and physician assistants must be within the scope of each practitioner's authorized practice as defined by state law.
3. The physician is ultimately responsible for coordinating and managing the care of patients and, with the appropriate input of the physician assistant, ensuring the quality of health care provided to patients.
4. The physician is responsible for the supervision of the physician assistant in all settings.
5. The role of the physician assistant(s) in the delivery of care should be defined through mutually agreed upon guidelines that are developed by the physician and the physician assistant and based on the physician's delegatory style.
6. The physician must be available for consultation with the physician assistant at all times either in person or through telecommunication systems or other means.
7. The extent of the involvement by the physician assistant in the assessment and implementation of treatment will depend on the complexity and acuity of the patient's condition and the training and experience and preparation of the physician assistant as adjudged by the physician.
8. Patients should be made clearly aware at all times whether they are being cared for by a physician or a physician assistant.
9. The physician and physician assistant together should review all delegated patient services on a regular basis, as well as the mutually agreed upon guidelines for practice.
10. The physician is responsible for clarifying and familiarizing the physician assistant with [her] his supervising methods and style of delegating patient care.
